Dear Henry, 8/17/83

With regard to your theorizing that the USSR under Khruschev knocked JFK off through LHO, I think you might want to read the new Martin book on JFK.

I've not read it and will await the appearance of the paperback.

I've caught some of the TV coverage and I've had some inquiries by those who read portions of the text to me.

Just today the portion reporting the secret correspondence between Kh and JFK. No dates are given but I'd be willing to bet that this correspondence began after 10/62.

I think Macmillan is the publisher.

Best,
